Education

Master's programme in Medical Science at Aarhus University

Currently on leave from my master's programme. I will finish my degree June 2024

Aug 2020- Now

Bachelor of Science in Medicine

I completed my Bachelor of Science in Medicine in June 2020. My Bachelor's Thesis concerned the field of infection and immunology concerning targeted T-cell therapy.

Jan 2017- June 2020

Study abroad at University of Otago New Zealand

I completed 5th semester of my Bachelor of Science in Medicine at University of Otago.

Feb 2019- July 2019

Work experience

Student assistant at Ry Medical Centre

I covered tasks such as phlebotomy, annual check-ups, vaccinations and removal of stitches on patients scheduled for examination. Occasionally I covered secretary work as well.

May 2021- Jan 2023

Medical secretary substitute at Auning Medical Centre

A time-limited employment, answering phone calls and made urine analysis.

Dec 2020- April 2021

Student assistant at Aagaard Fertility clinic

I primarily nursed patients prior to and after IVF aspirations as well as applied peripheral venous catheters. I also worked as a clinical assistant for doctors' examinations.

Oct 2019- May 2021

Research Experience

Research year student at Bandim Health Project

I am conducting an observational study on the impact of child and maternal BCG scarring on severity of disease among hospitalized children aged 2-59 months

(Currently) Feb 2023-Now

Master's thesis at Department of Clinical Epidemiology

I wrote a systematic review on risk factors for uncomplicated cystitis. It followed the PRISMA criteria and I used Covidence as article screening tool.

Jan 2022-June 2022

Research thesis at Department of Clinical Epidemiology

Thesis characterising users of antibiotics for the treatment of urinary tract infections based on data from the Danish statistics database.

Nov 2021-Jan 2022
